

APPENDIX D

C-T Fire Qualifications

File Code: 5100-3

Date: 03/16/2004

Route To:

Subject: Review of Prescribed Fire Qualifications

To: Jerry Reese, Caribou-Targhee Forest Supervisor

At a November Regional Fire Meeting, each Intermountain National Forest was requested to review the prescribed fire qualifications of every employee, and where there is an equivalency for required training or a certification of qualifications because of required experience and training, to elevate these findings for concurrence at the Forest level.

The Caribou-Targhee is unique in the fact that in the past Redcard was not utilized to track prescribed fire qualifications to its fullest extent. Because of this most prescribed fire experience and training has not been entered into Redcard and therefore IQCS.

We have carefully reviewed the prescribed fire qualifications of everyone on the Caribou-Targhee NF. The enclosed documents show the results of this file review and request a determination from you.

Signing below shows concurrence.

Christopher P. Ourada 03/16/04 Jerry B. Reese 03/16/04

Christopher P. Ourada
Caribou-Targhee Forest
Fire Management Officer

Jerry Reese
Caribou-Targhee Forest Supervisor

Alleman, Garth

Currently recorded Prescribed Fire Qualifications: RXB2

Certificates on file are for S-339, S-330, S-260, S-290, S-390, RX-300, and RX-340 Intro to Fire Effects. The Redcard Master Record also documents I-220, I-254, I-300, S-130, S-190, S-211, S-212, S-213, S-214, S-230, S-270, S-330, S-336, and RX-450. Garth is the FMO on the Bear River Zone. He is also qualified as ICT3, DIVS, ENGB, CRWB, FALC, FELB, STCR, STEN, TFLD.

RXB2 – Garth meets the required level 1 and level 2 training if the IQCS record is accepted as documentation. The prerequisite experience of ICT4, RXI2, and RXB2. Garth's RX experience is on file.

Recommendation:

RXM2 – Garth meets the required Level 1 training if the IQCS record is accepted as documentation. Garth has had the prerequisite experience of RXB2. As part of his regular duties, Garth manages prescribed fire on the Bear River Zone. We recommend that Garth provide to dispatch experience in this position so that it can be documented in his file and Redcard. Garth has attended the required training and has experience as RXM2.

RXI1(T) – Garth meets the required experience of RXI2. Garth should be issued a taskbook for RXI1, and RXI1(T) needs to be documented in Redcard.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

RXM2 should be added to Garth's Redcard Qualifications. Garth has been managing prescribed fire on the Bear River Zone for 3 years. Once documentation of experience is entered into Redcard / IQCS, Garth will have met all the prerequisites.

Allred, Courtney

Currently recorded Prescribed Fire Qualifications: none

Certificates on file include: I-200, S-130, S-190, S-200, S-205, S-212, S-230, S-231, S-234, S-260, S-270, S-290, and S-336. Courtney is an Engine Foreman on the Bear River Zone. Other qualifications include ENGB, FFT1, FALB, and ICT5.

Recommendation:

RXB3 – Courtney meets the level 1 training requirement of S-290 Intermediate Wildland Fire Behavior and the level 3 training S-234 Ignition Operations. He also meets the experience requirement of ICT5. Courtney should be certified into this position as he has been proficiently performing in this function for 5 years.

RXI2 – Courtney meets the required experience as ENGB. Courtney has also successfully performed this position for 3 years. RXI2 should be listed as one of Courtney's qualifications. We recommend that Courtney complete a RXI2 taskbook to document his proficiency.

Courtney needs to update his RX experience records in Redcard / IQCS so it is officially documented.

Requested Forest Concurrence:

Certify the position of RXB3 and RXI2 in Redcard / IQCS since Courtney has met all training and experience requirements.

Bastian, Clint

Currently recorded Prescribed Fire Qualifications: RXI2(T)

Certificates are on file for S-200, S-205, S-260, S-281, S-390, I-300. The Redcard Master Record also documents RX-310, S-130, S-190, S-211, S-212, S-217, S-230, S-231, S-232, S-270, S-290, S-300, and S-490. Clint is an Engine Foreman on the Portneuf Zone. His other qualifications include: ICT4, ENGB, FFT1, HECM, FALB, EMTB, CRWB(T) and STEN(T).

RXI2(T) – Clint has the prerequisite experience as ENGB. He was initiated a task book on 06/04/2003.

Recommendation:

RXI2: Clint should continue working through and complete the taskbook for RXI2. Clint's 5 years of Prescribed Fire Ignition Experience needs to be officially documented in Redcard / IQCS as follows: RXI2- Clint has performed as an RXI2 in 2003 on the Red Mountain Rx Burn, Miles Canyon Rx Burn, 2002 on the Slate Mountain Rx Burn, and 2001 on the Krib Springs Rx Burn, as well as the South Ant and Bloomington Rx Burns in 1999. He has also performed in burnout operation with hand ignition on the Harkness fire in 2003, the Cattle fire, Grover Springs fire, and Kress fire in 2001; and the Hawkins fire, Dayton #1 fire in 2000.

RXB3 – Clint meets the level 1 training requirement of S-290. He also has the required experience of ICT4. Clint has performed in this position for 4 years and should be officially documented in Redcard / IQCS as follows: Clint has performed the duties of an

RXB3 on the Cold Springs and North Pebble Timber Sale in 2001, Scout Mountain Fuels Reduction Project in 2002 and 2003, and Kinney Creek Fuels Reduction Project in 2003. Clint needs to provide documentation of taking the level 3 class of S-234 in 2002. Certificates are needed for the classes documented in IQCS.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify the qualification of RXB3 as Clint satisfies all the experience and training requirements in the draft 2004 revision of 5109.17.

Bishop, Gary

Current Prescribed Fire Qualifications: RXB2(T) and RXI2

Certificates on file are for S-201, S-211, S-212, S-217, S-230, S-231, S-232, S-260, S-290, S-300, S-330, S-336, S-390, S-490, I-200, I-300, RX-410 and RX-300. The Redcard Master Record also documents S-130, S-190, S-200, S-205, S-234, S-270, and RX-290. Gary is the AFMO-Fuels on the Portneuf Zone. His other qualifications include: ICT4, DOZB, STEN, STCR, FELB, HECM, CRWB, FALC, TFLD(T), STDZ(T), and ICT3(T) PLDO(T), HTMM(T), HTPT(T).

RXB2(T) – Gary has completed the required training of RX-300 and S-390. Although Gary has not completed RX-310 Intro to Fire Effects, there is documented experience in his file as a FEMO and he completed the course RX-290.

RXI2 – Gary has met all the experience requirements of RXI2. He completed the RXI2 taskbook, and it was approved Feb. 2003. Gary also has experience documented as FEMO in 1998 and 1999.

Recommendation:

RXB2(T) - Gary should continue working on and complete the RXB2 taskbook. We also recommend Gary complete the level 3 training L-380 Fireline Leadership.

RXB3 – Gary meets the required level 1 training of S-290 and the level 3 class S-234. He satisfies the required experience as ICT4. Gary needs to officially document in Redcard / IQCS his RXB3 experience on the Westside RD in 2003, 2002. He has participated with minimal supervision in low complexity spring burns in 2002 on the Westside RD. Gary also has experience setting up prescribed fires and implementing them as part of his duties managing a fuels crew for 4 years on the Wasatch Cache National Forest from 1997 to 2000. We recommend that he be certified into this position.

RXI1(T) – Gary meets the prerequisite experience of RXI2. Officially document Gary's RXI2 Experience in Redcard / IQCS as follows: Participated in the Red Mountain burn in 2003, C-T NF. Gary was an RXI2 for several burns as part of the Gibson Slate RX fires in 2002, C-T NF. Gary has participated in and successfully passed the Region 4 Aerial Ignition Operators Workshop in May 2002. Gary has also attended yearly refreshers for this certification. Gary is one assignment shy of completing this certification. Gary is a Mix Master Trainee for the helitorch. Gary has participated in Mix Master Trainee and Parking tender for the helitorch on the Willow Creek Rx fire on the C-T NF, fall 2002. We recommend that he be issued a taskbook for RXI1.

Gary needs to update his experience records to reflect any additional prescribed fire experience. Currently, there is no RX experience for Gary in IQCS.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Gary as RXB3, as he meets all prerequisite training and experience.

Bullard, Christy

Currently recorded Prescribed Fire Qualifications: none

Certificate is on file for Forest Service Apprenticeship Program for Wildland Firefighter Specialist. The Redcard Master Record documents I-100, I-200, P-101, P-110, P-130, S-110, S-130, S-131, S-190, S-200, S-211, S-212, S-215, S-230, S-231, S-234, S-260, S-270, S-281, and S-290. Christy is a Asst Crew Boss on the North Zone. She is qualified as: FFT1, HECM, FALB, HRAP, ICT5, ICT4(T) and CRWB(T).

Recommendation:

RXB3 - Christy meets the level 1 training requirement of S-290 and the prerequisite experience of ICT5. Christy has successfully performed in this position for 5 years and we recommend that she be certified as RXB3. We also recommend that Christy take the level 3 class S-234 Ignition Operations. Christy needs to officially document in Redcard / IQCS any experience as RXB3.

Christy's Fire Experience and Qualifications file in dispatch is practically non-existent. Christy needs to submit copies of all training certificates, RX and wildfire experience, and completed and initiated taskbooks to dispatch for documentation.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Christy as RXB3 as all required training and experience has been met.

Burch, Greg

Currently recorded Prescribed Fire Qualifications: RXB2 and RXM2(T)

Certificate on file is for S-205. The Redcard Master Record documents the successful completion of: A-101, A-102, A-103, D-310, I-220, I-330, I-339, I-342, I-346, I-374, I-378, I-420, I-430, RX-230, RX-300, RX-340, RX-450, S-130, S-190, S-200, S-201, S-205, S-211, S-212, S-213, S-214, S-215, S-216, S-230, S-260, S-270, S-300, S-353, S-490, XS-110, XS-231, XS-320, XS-330, and XS-390. Greg is the FMO for the Portneuf Zone. His other qualifications include: ATGS, ICT3, OPBD, DIVS, STEN, FLEC, STCR, OSC2, FLEB, and EDSD(T).

RXB2 – Greg meets the required level 1 and level 2 training with RX-300, S-490, and RX-340 (the old name for RX-310). Greg meets the required experience having experience documented in IQCS as ICT3, RXI2, and RXB2. Additional more complete RXB2 experience should be officially documented in Redcard / IQCS as follows: Greg started his Prescribed Fire training in the early 1980's while with the BLM. Many of the experiences attained were prior to RX fire qualification task books. As a single resource engine boss, Greg attained the equivalent of RXB3, RXI2 on RX fires on the Burley District and Idaho Falls District of the BLM. Greg's Burn Boss training continued with a RX Burning Detail to Las Cruces New Mexico District, BLM in 1993. While on this detail, Greg was involved in 3 Burns as a Burn Boss Trainee. These burns ranged from a 300 acre salt cedar burn in the Rio Grande River bottoms. To a 8,000 acre burn in Pinion Juniper and Ponderosa Pine. While with the Idaho Falls BLM, Greg was RXB2 on Hornet Springs 1,100 acres (spring and fall burns); Cow Hollow 1,250 acres (fall burn); Dairy Hollow 500 acres (fall burn); Horse Hollow 700 acres (fall burn); Tex Creek 2,000 acres (spring and fall burns); Medicine Lodge 550 acres (spring burn). While with the Forest Service, ID-CTF, Greg has been RXB2 on Toponce Creek 1600 acres (spring burn); East Bob Smith 700 acres (spring burn); 3 - Gibson/ Slate Mnt. Burns 650 total acres (spring burns); North Carter 1088 acres (fall burn).

RXM2(T) – Greg meets the level 1 requirement of I-300 Intermediate Incident Command System by taking I-420 Incident Command and General Staff as well as through his experience as OSC2. He satisfies the required experience as RXB2 and with 8 years of managing prescribed fires on the Caribou-Targhee NF.

Recommendation:

RXM2(T) – We recommend that Greg be certified as RXM2. We also recommend that he complete the level 3 training M-581 Fire Program Management.

RXB1(T) – Greg has completed the required level 1 training of RX-410(450) and S-490. He also has the required experience of ICT3 and RXB2. If Greg wishes to pursue this qualification, we recommend that Greg document by use of a task book any RXB1

training experience. The following experience needs to be officially documented in Redcard / IQCS: Greg was a trainee in 1998 on the Pritchard Creek Burn, PSD aerial ignition. On the Black Canyon Incident, 2002, UT-MOD, Greg wrote the burn plan for an aerial/hand ignition burnout operation. Greg was the RXB1(t) under Mac McFarland, WY-GTP. We also recommend that Greg also complete the level 3 training of M-580 Fire in Ecosystem Management, and RX-510 Applied Fire Effects.

RXI1 – Official documentation in Redcard / IQCS should be entered as follows: In 2000, while assigned to Carr's IMT2 on the Blind Trail Incident, WY-BTF, OSC2, Greg was RXI1 on firing operations for a major burnout operation that involved hand and aerial ignition (PSD).

RXI1- In 2002, while assigned to Broyles IMT2 on the Black Canyon Incident, UT-MOD, OSC2, Greg was RXI1 on firing operations for a major burnout operation that involved hand and aerial ignition (PSD). While on assignment with Logan IHC as Assistant Superintendent, on the Nizhoni Incident, UT-MLF, Greg was the Firing Boss on DIVS C for a 300 +/- acre burnout. Logan IHC was firing and holding with support of 3 type 4 engines.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Greg as RXM2, as he meets all the requirements, and functions in this position as the zone FMO.

Recertify Greg as RXI1 as he has the required experience and training.

Burnside, Denzil

Current recorded Prescribed Fire Qualifications: RXB3 and RXI2

Training certificates on file: S-217, S-200, Aerial Retardant and Use, S-336, S-205, S-334, I-330, S-390, S-355, S-230, S-130/S-190/110, S-260, S-270, Hazardous Materials 1st Responder. The Red Card Master Record documents S-211-212, I-220, I-272. S-390 was taken prior to development of the S-290 course. Denzil is currently the Engine Foreman stationed at Teton Basin and is Redcarded as: ENGB, ICT4, FALB, CRWB, RXB3.

RXB3 Denzil meets all the requirements as RXB3 and was performing in this position prior to development of the RXB3 taskbook. Mark meets the prerequisite experience requirement of Single Resource Boss and has experience performing this position numerous times in the past, but older experience records are lacking.

RXI2 Denzil meets the prerequisite experience requirement of Single Resource Boss and has experience performing this position numerous times in the past, but older experience records are lacking.

Recommendations

There is no documentation of prescribed fire experience within Denzil's file. Denzil has filled numerous assignments as RXB3, Ignition specialist type 2, and holding specialist. Document prescribed fire experience as carefully as you document wildland fire experience.

Requested Forest Concurrence:

Accept the Red Card Master Record as documentation for S-211/212, I-220, and I-272.

Butler, Paul

Currently recorded Prescribed Fire Qualifications: none

Paul has no certificates of training on file. The Redcard Master Record documents I-271, S-130, S-132, S-190, S-211, S-212, S-214, S-230, S-260, S-270 and S-390. Paul is a Range Management Specialist on the Westside RD. His qualifications include: PACK, SEC2, DOZB, STDZ, and FFT2.

Recommendation:

RXI2(T) – Paul meets the prerequisite experience requirement of Single Resource Boss. If Paul wishes to pursue this qualification, we recommend that he have a taskbook initiated and obtain trainee experience.

Paul's file is very deficient. Paul needs to send copies of any training certificates, completed taskbooks, and fire experience to dispatch.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Byers, Micheal

Currently recorded Prescribed Fire Qualifications: none

Certificates are on file for S-260, S-290, and S-390. The Redcard Master Record also documents successful completion of: I-220, S-110, S-130, S-190, S-200, S-205, S-212,

S-217, S-281, S-336, S-371, and S-372. Other courses completed include: Aerial Ignition Workshop in SLC 2002 and BeHave Plus in 2003 at NIFC. Mike is the Assistant Helitack Foreman on the Portneuf Zone. His qualifications include: ICT4, HELB, ENGB, HCWN, ENGB, FFT1, HECM, FALB, ENOP, HRAP, CRWB, and EMTB. Trainee positions include: PLDO(T), HTPT(T), HTMM(T), HEBM(T), HERS(T)

Recommendation:

RXB3 – Mike has the level 1 required training of S-290. Mike meets the prerequisite experience as ICT4. He has worked in the position of RXB3 for 4 years. Official Documentation of experience should be entered into Redcard / IQCS as follows: Mike has performed the RXB3 duties on the Scout Mountain Fuels reduction project, Kinney Creek Fuels Reduction project in 2002 and 2003. We recommend that Mike be certified as RXB3. We also recommend that he complete the level 3 class S-234 Ignition Operations. Official Documentation must be located showing Mike took S-234 Ignition Operations in 2002 taught by Greg Burch in Pocatello, Mike took S-270 Basis Air Operations in 2001 at EITC, and Mike took S-211/S-212 Saws and Pumps in 1997 taught at Westside RD.

RXI2 – Mike meets the required experience as Single Resource Boss. Mike has also successfully performed this position for 4 years. Officially document in Redcard / IQCS the following: Mike has performed as RXI2 in 2002 on the Slate Mountain RX Burn, Willow Flats RX Burn, 2003 on the Red Mountain RX Burn, Miles Canyon RX Burn, and on the South Ant Rx Burn in 1999. Mike has performed as RXI2 on Wildland Fires: 1999 on the Wagon Box Fire and the Mule Butte Fire, 2000 on the Clearcreek Fire, 2001 Walker Creek Fire and the Garden Gap Fire. Upon providing documentation of experience, RXI2 should be added to Mike's Red Card Qualifications.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Mike as RXB3 as he meets the required training and experience.

Add RXI2 to Mike's Qualifications because he has taken the required training and has the experience. He has successfully performed in this position for 4 years.

Carroll, Kraig

Current recorded Prescribed Fire Qualifications: RXB3, RXI2

Training certificates on file: S-404, S-490, RX-300, S-390, S-234, RX-340, BEHAVE/RXWindows, S-339, S-300, S-232, S-200, Aerial Retardant and use, S-205, I-330, S-260, S-217, I-271, S-270. The Red Card Master Record documents: I-300 4/94, I-220, 4/89, S-110, 130, 190 4/88, S-211-212 4/89, S-230 4/89 and S-336 4/92. S-390 was

taken prior to development of the S-290 course. Also on file is letter signed by Jerry Williams Director, Fire and Aviation Management and class roster granting one time equivalency for S-580 to participants of the Wildland Fire Use Workshop for Wilderness and Non-Wilderness Lands held in Idaho Falls on March 6-10, 2000. Kraig is currently the Operations AFMO for the South Fork Zone and is certified as DIVS, ICT3, STEN, STCR, ENGB, CRWB, CREP.

RXI2 Kraig meets all requirements as RXI2 and was performing in this position prior to development of the RXI2 taskbook.

RXB3 Kraig meets all the requirements as RXB3 and was performing in this position prior to development of the RXB3 taskbook.

Recommendations

RXB2 Kraig meets Level 1 and Level 2 training requirements for RXB2 and has an initiated task book for RXB2. Continue working on task book

There is no documentation of prescribed fire experience within Kraig's file. Kraig has filled numerous assignments as RXB3, Ignition specialist type 2, and holding specialist. Document prescribed fire experience as carefully as you document wildland fire experience.

Kraig previously served as Engine Foreman and Crew Boss for the Targhee Regular Crew for a number of years as well as performing as an instructor for S-110,130,190, S-211-212, S-230 and S-336.

Requested Forest Concurrence:

Accept the Red Card Master Record as documentation for I-220, I-300, S-110,130,190, S-211-212, S-230, and S-336.

The Wildland Fire Use Workshop for Wilderness and Non-Wilderness Lands held in Idaho Falls on March 6-10, 2000 is equivalent to S-580.

Cox, Jim

Currently Recorded Prescribed Fire Qualifications: RXB2 and RXI2(T)

Certificates on file include: RX-340. The Redcard Master Record documents successful completion of: I-220, I-271, I-330, I-339, I-334, RX-340, RX-90, RX-91, RX-93, S-130, S-190, S-205, S-211, S-212, S-213, S-217, S-230, S-234, S-260, S-270, S-300, and S-390. Jim is a Fuel Technician on the North Zone. His other qualifications include: ENGB, ICT3, STCR, HECM, CRWB, STEN, and DIVS.

RXI2(T) – Jim meets the prerequisite experience with ENGB. There is no taskbook on file, however, Jim probably became a RXI2(T) before taskbooks were used. Jim has 5 operational periods of RXI2(T) experience in 2002 documented in IQCS. He had more RXI2(T) experiences prior to that as he has been a RXI2(T) since 1998.

RXB2 – A completed position task book is in the file for RXB2. The taskbook was initiated in September 2001 and certified April 2003. Jim has completed the required Level 1 training of S-390 and RX-340 Intro to Fire Effects. Jim also completed RX-90 Burn Boss in 1998. Jim did complete RX-91 Monitoring Prescribed and Prescribed Natural Fire and RX-93. Jim meets the required experience of ICT3, however there is no documentation of experience as a qualified RXI2. Jim's last documented experience as RXI2(T) was in September 2002.

Recommendation:

RXI2 – We recommend that Jim be certified as RXI2. Jim was initiated a position taskbook for RXB2 which shows he must be proficient as RXI2. Jim has preformed on Island Park BD projects since the early 70's he has also preformed on RX project in that time. Some of those projects include, Willow CR RX 1000+ ac, 7 Sheep Station RX projects 6000+ac, Ripley Butte 200+ ac, East Dry Cr RX 300+ ac, Kick Creek RX 500+ ac, his last date of experience will be 2003. Officially document Jims experience in Redcard / IQCS.

Recommend completion of RXB2 taskbook. His last date for experience at the RXB2 position is Sept 2003 on the Sheep Station RX project of 700+ ac.

Recommend initiating a taskbook for FUM2.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Jim in the position of RXI2 and initiate a taskbook for FUM2.

Davis, Steve

Currently recorded Prescribed Fire Qualifications: RXI2(T)

There are no certificates for training in Steve's file. The Redcard Master Record documents successful completion of: I-200, I-254, I-271, I-272, I-330, I-339, P-151, S-110, S-130, S-190, S-205, S-217, S-230, S-234, S-270, S-300, and S-390. Steve is the AFMO for the North Zone. His other qualifications include: DOZB, ENGB, ICT3, TFLD, STEN, HECM, CRWB, FALB, BCMG, STCR, and DIVS.

RXI2(T) – Steve meets the prerequisite experience as Single Resource Boss. There is no taskbook on file, however, Steve probably became a RXI2(T) before taskbooks were used. Steve has 6 operational periods of RXI2(T) experience in 2001 documented in IQCS. He had more RXI2(T) experiences prior to that as he has been a RXI2(T) since 1998.

Recommendation:

RXI2(T) – We recommend that Steve be certified as RXI2. Steve does not need a task book for this position, he has been involved with the Ashton RD BD program for 15 years and the RX program for the same amount of time. Officially enter into Redcard and IQCS the following experience: Willow CR RX 1000+ ac, 7 Sheep Station RX projects 6000+ac, Ripley Butte 200+ ac, East Dry Cr RX 300+ ac, Kick Creek RX 500+ ac, his last experience date will be 2003.

RXB3 – We recommend that Steve be certified as RXB3. Steve meets the prerequisite training and experience. He has been involved with the Ashton RD BD program for 15 years and the RX program for the same amount of time, his last experience date will be 2003 which was on the Island Park Interface project pile burning.

Steve's Fire Qualifications file at HQ is very deficient. Steve needs to send copies of any training certificates, initiated and completed taskbooks, and fire experience to dispatch.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file. (S-390 and S234 are listed in the IQCS)
Certify Steve as RXI2 and RXB3. Steve meets all the required training and experience for these positions.

Fitch, Matt

Current recorded Prescribed Fire Qualifications: none
Certificates are on file for: The Redcard Master Record also documents: S-130, S-190, S-131 S-200, S-211/212, S-215, S-217, S-261, S-270, S-281, S-290, I-200. Matt is an assistant engine foreman on the Portnuef Zone. His qualifications include: FFT1, HECM(T), FALA, ICT5, ENGOP, ENGB(T), ICT4(T)

Recommendation:

RXB3 – Matt has completed the level 1 course S-290 Intermediate Wildland Fire Behavior. He meets the experience requirement as ICT5. Matt has been performing the RXB3 position for 2 years. Official documentation of RXB3 experience should be

entered into Redcard / IQCS as follows: Matt has experience in RXB3 in 2003 with the Scout Mountain Fuels reduction Project, and the Kinney Creek Fuels reduction Project. We recommend that Matt be certified as RXB3. We also recommend that Matt complete the level 3 course S-234 Ignition Operations.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Matt as RXB3. Matt meets all the training and experience requirements and has 2 years performing as RXB3.

Heyrend, Doug

Currently recorded Prescribed Fire Qualifications: none

There are no training certificates on file for Doug. The Redcard Master Record documents successful completion of: I-220, S-130, S-190, S-211, S-230, S-232, S-260, S-270, S-290. Doug is a forester on the Soda Springs RD. He is qualified as: DOZB, FFT1, and FALB.

Recommendation:

RXI2 – Doug meets the prerequisite experience requirement of Single Resource Boss. There is no documentation of his RX experience, however Doug has performed the position of RXI2 on prescribed fires for 8 years. After officially documenting Experience we recommend that RXI2 be added to Dougs Red Card Qualificaitons.

RXB3 – Doug meets the prerequisite experience and training and has performed as a RXB3 for 8 years. We recommend that Doug be certified as RXB3.

Doug needs to provide documentation of his experience as RXI2 and RXB3 so that these positions can be added to his Redcard.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Add RXI2 to Dougs red card based on his experience as DOZB and 8 years performing the position of RXI2.

Certify Doug as RXB3, as he meets all the required training and experience, and has performed the position for 8 years.

Hill, Jeff

Currently recorded Prescribed Fire Qualifications: RXB2

Certificates on file are for: S-230, S-234, S-260, S-270, S-330, S-390, S-404, S-490, RX-300, RX-340, RX-410, and M-410. The Redcard Master Record also documents the successful completion of: I-339, S-130, S-190, S-200, S-205, S-212, S-217, S-290, and S-301. Jeff is the AFMO- Operations for the Portneuf Zone. His other qualifications include: ICT3, DIVS, STCR, HECM, FALC, STEN, TFLD, and SOF2(T).

RXB2 – Jeff meets the required Level 1 and Level 2 training for RXB2. Currently certificates are on file for this training. IQCS documents Jeff's experience as ICT3, and RXB2. There is no RXI2 experience in the record, however, Jeff's file documents RX experience as a FIRB Single Resource Boss Firing in 1999. A RXB2 taskbook was initiated in 1999 and certified in 2003 and this is documented in his file.

Recommendation:

RXB2 – Jeff's experience as FIRB should be accepted as equivalent to RXI2 experience. Jeff needs to continue to document any RXI2 experience.

RXI2 – Officially document in Redcard / IQCS experience as follows: RXI2 in 2000 on the Gibson/Slate RX Burn; 2000 while on assignment with Carr's IMT2 as DIVS on the Kelly Creek Incident, NV-EKD, burnout operation with hand ignition.

RXI1- If Jeff wants to pursue the qualification of RXI1 a task book should be initiated. He has taken the required training to be qualified in this position.

RXM2 - Jeff needs to officially document I-300 training taken at EITC. This added to experience would qualify him as RXM2.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Add RXI2 to Jeff's red card qualifications since he has 8 years of experience in this position.

Initiate a position taskbook for RXI1.

Hinks, Dusty

Currently recorded Prescribed Fire Qualifications: RXB2

No training certificates are on file for Dusty in dispatch. The Redcard Master Record documents the successful completion of: I-220, I-330, I-333, I-334, I-335, I-339, I-348, S-110, S-130, S-190, S-211, S-212, S-213, S-214, S-215, S-230, S-260, S-270, S-320,

and S-390. Dusty is a Range Technician on the Palisades RD. His other qualifications include: SOF2, PACK, DOZB, OSC2, DIVS, and RESL.

RXB2 – Dusty has been certified before task books and a number of the prerequisite training for this position were developed. Dusty completed the level 1 course S-390 Intro to Wildland Fire Behavior Calculations, but he lacks RX-300 Burn Boss and RX-310 Intro to Fire Effects. Dusty has had RX experience as RXI2 and RXB2, but documentation of this experience is lacking. He exceeds the required experience as OSC2. His position currency will expire unless he provides documentation of RXI2 and/or RXB2 experience.

Recommendation:

RXB2- Dusty needs to provide to dispatch documentation of experience as RXB2 and RXI2. We also recommend that he complete the required courses RX-300 Burn Boss and RX-310 Intro to Fire Effects. If he provides experience and attends above courses, Dusty should maintain his currency as RXB2.

RXI2- Upon receiving documentation of RXI2 experience, we recommend RXI2 be added to Dusty's redcard. He meets the experience requirement of Single Resource Boss, and has had many years of RX ignition experience.

Dusty's training file is very deficient. He needs to send copies of any training certificates, initiated and completed taskbooks, and fire experience to dispatch.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Once experience records are recorded add RXI2 to Dusty's qualifications.

Hodges, Gene

Currently recorded Prescribed Fire Qualifications: RXB2(T)

Certificates are on file for I-100, S-130, S-190, S-205, S-200, S-234, S-217, S-244, S-330, S-336, S-381, RX-300, and RX-340. The Redcard Master Record also documents the successful completion of: S-201, S-211, S-212, S-230, S-260, S-270, S-271, and S-390. Gene is the Helitack Foreman on the Portneuf Zone. His other qualifications include: ICT4, HEMG, FFT1, FOBS, HEB2, FALC, HTMG, PLDO, HRAP, ICT5, CRWB, DECK, HTMM, HERS, HESM, STCR(T), and HEB1(T)

RXB2(T) – Certificates on file and IQCS document that Gene has completed the required courses RX-300 Burn Boss, S-390 Intro to Wildland Fire Behavior Calculations, and RX-340(310) Intro to Fire Effects. Gene meets the prerequisite experience of ICT4.

Recommendation:

RXB2(T) – Gene needs to continue working through his RXB2 position taskbook, and become a qualified RXB2. He needs to provide a copy of this taskbook to dispatch. Gene was initiated a RXB2 taskbook in February of 2002, however a copy of this taskbook is missing from his file.

RXI2 – Gene needs to officially document the following experience in Redcard / IQCS: RXI2 Experience as follows Red Mountian 2003. Miles Canyon 2003. Scout Mountian 2003,2002. Kinney Creek 2003, Oxbow2003, Gibson Slate 2002, Yankee Fork 2001. Because he has been performing this position for many years, we recommend that upon receiving documentation of experience, Gene be certified as RXI2.

RXI1(T) – Gene has had experiences in many different types of ignition, including arial ignition. We recommend that he have a position taskbook initiated for RXI1, and begin taking trainee assignments in this position. Officially document in Redcard /IQCS the following experience as follows: RXI1 Commisarry Ridge 2002, Willow Rx 2002, Holdover ridge RX PAF 1997, Carey Creek RX , PAF 1997. Morse Creek 2000 S-C Wildfire conducted 200 acre burn out while functioning as type 4 IC. R-4 Arieal Igniton workshop 1996. Instructor R-4 Arieal Ignition Workshop 2002.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

List RXI2 as a qualification on Gene's red card.

Initiate postition taskbook for RXI1.

Hogan, Bart

Currently recorded Prescribed Fire Qualifications: RXI2 and RXB2(T)

Certificates are on file for: I-300, S-205, S-234, S-290, S-300, S-330, S-336, S-390, RX-96, and RX-340. The Redcard Master Record also documents the successfull completion of: I-200, P-151, S-110, S-130, S-131, S-190, S-200, S-211, S-212, S-214, S-217, S-230, S-260, and S-270. Bart is an Engine Foreman on the North Zone. His other qualifications include: ICT4, ENGB, TFLD, STEN, HECM, CRWB, FALB, CREP, ICT3(T), and STCR(T).

RXI2 – Bart exceeds the Single Resource Boss criteria for RXI2. Bart has a completed position taskbook on file which he completed in 1999.

RXB2(T) – Bart has taken the level 1 course S-390, However, there is no documentation that he has completed RX-300, or RX-310. Bart meets the prerequisite experience of ICT4 and RXI2. There no evidence of an initiated taskbook for this position.

Recommendation:

RXI2 – Bart preformed in this position in Sept of 2003 on the Island Park Interface project and the Sheep Station RX burn of 600+ ac. We recommend that Bart continue to document his experience.

RXB2(T) – We recommend that Bart be decertified as RXB2(T) until all required training is completed, and a position taskbook is initiated. Bart needs to complete RX-300 Burn Boss and RX 310 Intro to Fire Effects or Technical Fire Management.

RXB3 – Bart has completed the required training of S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. Bart exceeds the prereequisite experience of FFT1, and has succesfully performed as a RXB3. We recommend Bart Be certified as RXB3.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Discontinue documentation in Bart's RXB2(T) task book until he has completed required training.

Certify Bart as RXB3, as all required training and experience have been met.

Hurt, Ronald (Skip)

Currently recorded Prescribed Fire Qualifications: RXB2

There are no certificates for training in Skip's file. However, the Redcard Master Record documents the successful completion of: I-220, I-224, I-254, I-335, I-339, I-430, I-520, S-110, S-260, and S-390. Skip is the FMO for the North Zone. His other qualifications include: FOBS, ICT3, OSC1, OPBD, DIVS, and FACL.

RXB2 – Skip was certified in 1991, before task books and before a number of the courses were developed. He has completed the level 1 course S-390 Intermediate Wildland Fire Behavior Calculations. There is no record of RX-300 Burn Boss, or RX-310 Intro to Fire Effects. Skip exceeds the required experience with ICT3. Skip's last experience was on the Sheep Station Burn in 2003.

Recommendation:

RXB2 – Officially document in Redcard / IQCS the following experience: the Willow Creek RX burn, four Sheep Station burns of over 1000 ac each, Ripley Butte burn, Teepee Creek burn, Stoddard Creek, Modoc Creek, Camas Creek, Howard Creek, many large burn outs on Type 1 fires and the BD program on the North Zone for Many years, either leave certification alone or take it off completely. I was the trainer for the Winslow (Type3) fire and I was the Type 3 IC on the Anderson fire in 2001. Took RX 90 in 1989. Have functioned as DIVS, OPBD, OPC2 and OPC1 (as a member) on four (4) type 2 teams and 2 type 1 teams over the past 17 years. Functioned as firing boss on numerous large scale burn outs while being assigned to these teams.

RXM2 – Certify as RXM2, as he meets all the requirements, and functions in this position as the zone FMO.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Accept RX-90 as RX-300 and show Skip as being certified as RXB2.

Certify Skip as RXM2. Accept his experience as OSC1 as filling the requirement for I-300.

Johnson, Dylan

Currently recorded Prescribed Fire Qualifications: RXB2, FUM2(T)

Certificates are on file for: I-200, S-130, S-190, S-200, S-230, S-232, S-205, S-212, S-217, S-230, S-260, S-290, S-300, S-330, S-390, S-490, S-580, RX-300, RX-340, and RX-410. The Redcard Master Record also documents the successful completion of: S-110, and S-270. Dylan is the AFMO – Fuels for the Bear River Zone. His other qualifications include: ICT4, ENGB, FFT1, STEN, CRWB, FALC, TFLD, FELB, and ICT3(T).

RXB2 – Dylan has completed the required level 1 training of RX-300 Burn Boss, RX-340 Intro to Fire Effects, and S-390 Intro to Wildland Fire Behavior Calculations. He meets the required experience of ICT4. Dylan has 5 years of RXB2 experience documented in his file. Dylan completed a taskbook on 3/07/2001, however, this is lacking from his file.

FUM2(T) – Dylan meets the Level 1 training of RX-300 Burn Boss, and level 2 of Managing Wildland Fire for Resource Benefits. A taskbook was initiated for FUM2 on 03/11/2004.

Recommendation:

RXI2 – We recommend that RXI2 be added to Dylans red card qualifications. He meets the prerequisite experience, and has been performing this position for 8 years.

RXI1 – Dylan is an RXI2 and meets the prerequisite experience. We recommend that he be issued a RXI1 taskbook.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Accept qualifications of RXI2 to Dylans red card, as he had been performing this position for 8 years.

Johnston, Mike

Currently recorded Prescribed Fire Qualifications: RXI2(T)

Certificates are on file for: I-200, S-190, S-211, S-212, S-230, S-231, S-234, S-260, S-261, S-270, S-290, S-301, S-330, S-336, and S-390. The Red Card Master Record also documents S-130, S-200, S-215, S-217, S-300, and S-381. Mike is an Engine Foreman on the North Zone. His other qualifications include: ICT4, ENGB, TFLD, STEN, FFT1, HECM, CRWB, HEMG(T), STEN(T), and ICT3(T). Mike has completed ICT3 Task Book.

RXI2(T) – Redcard shows Mike becoming a trainee in January 2000, however, there is no record of a taskbook. There is also no evidence of experience as RXI2(T) in his file or Redcard. Mike meets all the experience prerequisites for RXI2.

Recommendation:

RXI2(T) – Mike needs to submit any documentation of experience as RXI2. Mike has the task books for RXI1 and RXI2 and just needs the final evaluators signature in the summer of 2004.

RXB3 – Mike has the level 1 training of S-290, Intermediate Wildland Fire Behavior, and S-234 Ignition Operations. He exceeds the required experience as ICT4. Mike has performed the position of RXB3 for 3 years. We recommend that Mike be certified as RXB3.

Requested Forest Concurrence:

Certify Mike as RXB3 since he has the prerequisite training and experience.

Johnston, Spencer

Current recorded Prescribed Fire Qualifications: RXB3

Training certificates on file: I-200, RX-310, S-130, S-190, S-232, S-281, S-390, S-205, S-200, S-330, S-300, S-336, S-290, S-270, S-260, S-217, S-230/231, S-234. The Red Card Master Record documents S-212, I-220. Spencer is currently the Engine Foreman stationed at Swan Valley and is Redcarded as: ENGB, ICT4, FALB, CRWB, RXB3 ENOP, STEN and FFTR1.

RXB3 Spencer meets all the requirements as RXB3 and was performing in this position prior to development of the RXB3 taskbook. Spencer meets the prerequisite experience requirement of Single Resource Boss and has experience performing this position in the past, but older experience records are lacking.

Recommendations

There is no documentation of prescribed fire experience within Spencer's file. Document prescribed fire experience as carefully as you document wildland fire experience.

Initiate RXI2 task book for Spencer.

Spencer is currently qualified as a "B" sawyer and will likely attend the C faller class in 2004.

Requested Forest Concurrence:

Accept the Red Card Master Record as documentation for. I-220, and S-212. Initiate a RXI2 taskbook to Spencer, as he meets all the prerequisite experience.

Keetch, Curtis

Currently Recorded Prescribed Fire Qualifications: none

Certificates on file include: RX-300, RX-310, S-230, S-260, S-290, and S-390. The Redcard Master Record also documents the successful completion of: I-200, I-220, S-130, S-190, S-200, S-205, S-212, and S-336. Curtis is a Wildlife Biologist on the Dubois RD. Curtis' qualifications include: ENGB, FFT1, FALC, ENOP, and CRWB.

Recommendation:

Certify Curtis as RXI2 and RXB3 after documenting experience. Have him complete his RXB2 task book and return to dispatch for entry the Redcard system.

Requested Forest Concurrence:

See above

Kidd, John

Currently Recorded Prescribed Fire Qualifications: RXB1 and RXB2

Certificates on file include: I-330, I-339, RX-510, S-217, S-230, S-260, S-378, S-390, S-400, S-420, S-490, S-580 and RX-90. The Redcard Master Record also documents the successful completion of: I-220, I-271, I-272, I-378, RX-90, S-110, S-130, S-190, S-211, S-212, and S-270. John is the Forest AFMO and Forest Fuels Program Leader. His other qualifications include: ATGS, HEMG, DIVS, PLDO, CRWB, ICT3, and OSC2(T).

RXB1 – John became qualified in 1999. He meets the required experience of RXB2 and ICT3. There is however no documentation of the level 1 courses RX-410 Smoke Management Techniques, but John has had Smoke Emissions and Dispersion Modeling course in 1985 (this was taught prior to RX-410), and S-490 Advanced Fire Behavior Calculations. (See above Certificates)

RXB2 – John exceeds the required experience as ICT3. He also has documented experience of RXI2. He completed RX-90 Burn Boss, which should be equivalent to RX-300 Burn Boss. There is no record of RX-310 Intro to Fire Effects (taught course in 1997 and 2002 for EITC) or Technical Fire Management.

RXI1 - Has official experience as follows: Webster Ridge 1999, Pleasant Valley burn 2000, Pritchard 2000, Willow Creek 2002 and others since 1999.

RXI2 – John meets all the qualifications, and has current documented experience in Redcard as RXI2. Uncertain as to why this qual is not listed on his qualifications.

FUM2 – Finished task book for FUM2 in 2003. Start working on FUM1.

Recommendation:

RXB2 – John should continue to document RXB2 experience. We recommend that John complete RX-310 Intro to Fire Effects, or Technical Fire Management. We also recommend the level 3 course, L-380, Fireline Leadership.

RXB1 – We recommend that John continue to perform as RXB1 and document all experience as such. We also recommend that John complete the level 1 courses RX-410 Smoke Management Techniques (see above). We also recommend that John attend some of the level 3 courses: M-581 Fire Program Management (attended half the course other half end of April) and / or M-580 Fire in Ecosystem Management.

RXI2 – Reinstate this qualification on John's Redcard file as he has currency in this position.

RXM2 – Document any experience of this in Red Card / IQCS.

RXM1 – Initiate task book for RXM1

FUM2 – Finished task book for FUM2 in 2003. Start working on FUM1.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Accept RX-90 Burn Boss as equivalency for RX-300 Burn Boss.

Reinstate John's RXI2 qualification on his Redcard file as he has currency in this position.

Accept past experience as RXM2 and list as qualification in Red Card.

Kidd, Justin

Currently recorded Prescribed Fire Qualifications: none

Certificates are on file for: I-200, P-151, S-217, S-234, S-290, S-230, S-231, and S-310. The Redcard Master Record also documents the successful completion of I-300, S-130, S-190, S-200, S-211, S-212, S-234, S-260, S-281, S-290, S-330, S-381, S-390, and RX-310. Justin is an Assistant Engine Foreman on the North Zone. His qualifications include: ENGB, FFT1, ICT4(T), and HECM(T).

Recommendation:

RXI2(T) – Justin meets the prerequisite experience requirement of Single Resource Boss. We recommend that Justin be issued a taskbook for RXI2. Officially document in Redcard / IQCS experience performed in 2000, 2001, 2002, 2003.

RXB3 – Justin has completed the level 1 courses S-290 Intermediate Wildland Fire Behavior, and S-234 Ignition Operations. He has the prerequisite experience of FFT1. We recommend that with satisfactory performance as a RXB3(T), Justin be certified as RXB3. His experience in 2003 should be officially entered into Redcard / IQCS so he can be certified as RXB3.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Add RXB3 as a qualification to Justin's red card since he has the prerequisite experience and training.

Klingenberg, Ken

Currently recorded Prescribed Fire Qualifications: none.

Certificates on file include: S-205, S-230, S-260, and S-261. The Redcard Master Record also documents successful completion of: I-220, S-130, S-190, S-211, S-212, S-213, S-214, S-270, and S-290. Ken is a Forestry Technician on the Montpelier RD. Ken's qualifications include: SEC2, FFT1, FALB, BCMG(T), and COTR(T).

Recommendation:

RXB3 – Ken meets the Level 1 training requirement of S-290 Intermediate Wildland fire Behavior. He also meets the required experience of FFT1. Ken has successfully performed as RXB3 for 20 years. We recommend that Ken be certified as RXB3.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for S-290.

Add RXB3 to Ken's redcard qualifications because he has satisfactorily attended prerequisite training and has the experience.

Krupski, Ben

Currently recorded Prescribed Fire Qualifications: none

Certificates on file include: I-200, S-200, S-201, S-205, S-211, S-290, S-230, S-231, S-260, S-270, S-330, S-331, S-336, and S-390. The Redcard Master Record also documents the successful completion of: RX-310, S-130, S-131, S-190, S-212, and S-234. Ben is an Engine Foreman on the North Zone. His other qualifications include: ICT4, ENGB, and CRWB.

Recommendation:

RXB3 – Ben had completed the level 1 and level 3 training with S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. Ben has also completed RX-310 Intro to Fire Effects. He exceeds the required experience as ICT4. Ben has performed as RXB3 for 3 years. We recommend that Ben be certified as RXB3.

RXI2(T) – Ben meets the required experience as ENGB. We recommend that a RXI2 position taskbook be initiated for Ben. We recommend that he document all RX experience.

Requested Forest Concurrence:

none.

Liday, Jeff

Currently recorded Prescribed Fire Qualifications: RXI2(T)

Certificates on file include: I-300, S-205, S-211, S212, S-216, S-230, S-231, S-234, S-260, S-270, S-281, S-290, S-336, S-390, and RX-300. The Redcard Master Record also documents the successful completion of: I-200 and S-200. Jeff is an Engine Foreman on the Portneuf Zone. His other qualifications include: ICT4, ENGB, FALC, EMTB, FFT1, CRWB(T), DOZB(T), STEN(T), and HECM(T).

RXI2(T) – Jeff has meets the required experience as ENGB. A taskbook was initiated in June 2003 for RXI2, however this is missing from his file.

Recommendation:

RXI2(T) – Jeff should continue to work through his taskbook, and document all his experience as RXI2(T). Officially document in Redcard / IQCS the following experience: Jeff has performed as a RXI2 in 2003 on the Red Mountain Rx Burn, and 2002 on the Slate Mountain Rx Burn.

RXB3 – Jeff has completed the level 1 and level 3 training of S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. Jeff has also completed RX-300 Burn Boss. He exceeds the required experience as ICT4. Jeff has been performing as RXB3 for 3 years. We recommend that Jeff be certified as RXB3. Officially document in Redcard / IQCS the official experience as follows: Jeff has performed the duties of RXB3 on the Cold Springs North Pebble Timber Sale Rx Burn in 2001, and Scout Mountain Fuels Reduction Project, Kinney Creek Fuels Reduction Project in 2003.

Requested Forest Concurrence:

Certify Jeff as RXB3 as he exceeds the training and experience requirements for RXB3.

Martin, Chad

Currently recorded Prescribed Fire Qualifications: none

Certificates on file include: S-200, S-205, S-211, S-230, S-234, S-231, S-260, S-270, S-281, S-290, and RX-310. The Redcard Master Record also documents the successful completion of: I-100, S-130, S-190, and S-231. Chad is an Assistant Engine Foreman

on the North Zone. His qualifications include: FFT1, EMTB, ICT5, ICT4(T), and ENGB(T).

Recommendation:

RXB3 – Chad has completed the level 1 and level 3 classes of S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. He meets the required experience of FFT1. With successful RXB3(T) experience, we recommend that Chad be certified as RXB3.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Upon receiving documentation of successful RXB3(T) experience, certify Chad as RXB3 as he has met all the training and experience requirements.

Mattson, Eric

Currently recorded Prescribed Fire Qualifications: none

Eric has no training certificates of training in his file. The Redcard Master Record documents successful completion of: I-220, S-130, S-190, S-211, S-212, S-214, S-260, S-270, S-390, and RX-96. Eric is a Forestry Technician on the Montpelier RD. His qualifications include: DOZB and STDZ(T).

Recommendation:

RXI2 – Eric meets the required experience as DOZB. He has completed RX-96 ignition specialist. Eric has been performing as RXI2 for 24 years. We recommend that he be certified as RXI2.

RXB3 – Eric meets the prerequisite training with S-290 Intermediate Wildland Fire Behavior. He meets the experience as DOZB. Eric has been performing this duty for 24 years. We recommend that he be certified as RXB3. There is no record of S-290 in his file or Redcard. Eric needs to send a copy of this certificate to dispatch for documentation of this training.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Accept certification as RXI2 because Eric meets all the requirements as has been performing in this position for 24 years.

Certify Eric as RXB3 as he meets all the qualifications and has been performing this function for 24 years.

Mattson, Jared

Currently recorded Prescribed Fire Qualifications: none

Certificates on file include: P-151, I-200, I-300, S-205, S-211, S-212, S-216, S-230, S-231, S-232, S-234, S-260, S-270, S-290, S-301, S-330, S-336, S-390, RX-300. The Redcard Master Record also documents the successful completion of: S-130, S-190, S-200, and S-281. Jared is the AFMO – Operations for the Bear River Zone. His qualifications include: ICT4, ENGB, FFT1, TFLD, STEN, FALB, and CRWB.

Recommendation:

RXI2 – Jared exceeds the required experience as TFLD. Jared has performed the RXI2 position for 3 years. We recommend that RXI2 be added to Jared's redcard qualifications.

RXB3 – Jared has completed the level 1 and level 3 training with S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. Jared has also completed RX-300 Burn Boss. As ICT4, Jared exceeds the required experience. We recommend that Jared be certified as RXB3. We also recommend that Jared complete RX-310 Intro to Fire Effects so that he can qualify as a RXB2(T).

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Jared as RXI2 and RXB3, as Jared meets all the requirements of these positions.

Olsen, Kai

Currently recorded Prescribed Fire Qualifications: RXI2 and RXB2

Certificates on file include: A-103, A-203, A-205, A-207, A-302, A-305, A-307, I-300, D-110, D-310, S-205, S-217, S-290, S-300, S-330, S-336, S-339, S-370, S-390, S-490, S-491, RX-300, and M-410. The Redcard Master Record also documents the successful completion of: I-220, S-110, S-130, S-190, and S-212. Kai is the Assistant Center Manager – Intelligence for the Eastern Idaho Interagency Fire Center. His other qualifications include: AERO, RAWS, THSP, ICT4, EDRC, FFT1, TFLD, HECM, ABRO, ENGB, STEN(T), and EDSD(T).

RXI2 – Kai meets the prerequisite experience of single resource boss. He has a position taskbook on file that was certified November in 1997.

RXB2 – Kai has completed the level 1 courses of RX-300 Burn Boss and S-390 Intro to Wildland Fire Behavior Calculations. Kai was certified in Region 3, where he was grandfathered into RX-340(310) Intro to Fire Effects. He is also in the process of completing Technical Fire Management. Kai meets the prerequisite experience of ICT4 and RXI2. He has a position taskbook on file that was certified in October 2001.

Recommendation:

Kai needs to continue to work in RX positions as his RX quals will currently expire in 2006.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Ourada, Chris

Current Prescribed Fire Qualifications: RXB1, RXM1, FUM1, FUM2

Training certificates are on file for Local Fire Management Leadership (2002), S-590 (2002), RX-540 (2001), S-580 (2001), I-400 (2000), I-401 (2000), S-493 (1999), S-492 (1999), BBSS (1999), S-491 (1997), M-581 (1997), S-490 (1997), TFM (1997), Prescribed Natural Fire Management (1995), RX-410 (1994), RX-300 (1993), RX-340 (1992), S-390 (1988). The Red Card Master Record of the Clearwater, Flathead and Caribou-Targhee National Forests documents I-220 (04/85), I-330 (04/1991), I-339 (04/1993), M-410 (02/1992), RX-91 (02/1995), S-190 (04/1985), S-205 (04/1992), S-211 (04/1987), S-212 (04/1990), S-213 (04/1987), S-214 (04/1990), S-215 (06/1987), S-217 (04/1993), S-230 (04/1987), S-234 (04/1996), S-260 (04/1985), S-262 (04/1991), S-270 (04/1992), S-300 (04/1994),

Chris is currently the Caribou-Targhee National Forest FMO and an Operations Section Chief on a Type 2 Team. He is also certified as an ICT3 and OSC2. Documentation is absent for I -300. S-390 was taken before the S-290 course was developed.

RXB1 Certificates on file for RX 410 (Smoke Management), S-490 (Advanced Fire Behavior Calculations, M-581 Fire Program Management, RX-510/540 (Applied Fire Effects). Chris has not attended Level 3 Training M-580 (Fire in Ecosystem Management). Chris has documented Experience as RXB1, RXB2 and ICT3.

RXM1 Missing Certification for I-300 (Intermediate Incident Command) but has Certification for I-400 (advanced Incident Command System, I-401 (Multi Agency

Coordination) and M-581 (Fire Program Management). Experience documented for RXB1 and Prescribed Fire Manager Type 1.

FUM1 Certificates on file for RX-300 (Burn Boss), S-580 (Advanced Fire Use Applications, M-581 (Fire Program Management). Documented experience as RXB1, and FUMA through Stage III prior to the conversion of FUMA to FUM1 and FUM2 in 1999, 2000, and 2001.

FUM2 Certificates on file for RX-300 (Burn Boss), S-580 (Advanced Fire Use Applications, Managing Wildland Fire For Resource Benefits (Region 1) and M-581 (Fire Program Management). Documented experience as RXB1, RXB2, FUMA prior to conversion of FUMA to FUM1 and FUM2, and ICT3 in 1999, 2000, 2001, and 2002.

Requested Forest Concurrence:

Accept the Red Card Master Records as documentation for all 100 and 200 level classes. Accept I-400 in substitution for I-300 with stipulation that Chris will help instruct I-300 in the near future to achieve documentation for this class. Accept conversion of the qualification of FUMA to qualification of FUM1 and FUM2 by utilizing documented required training certificates and documented required experience records at these two levels.

Parry, Brinton

Currently recorded Prescribed Fire Qualifications: none

There are no training certificates in Brinton's file. The Redcard Master Record documents: I-200, P-101, P-110, P-130, S-130, S-131, S-190, S-217, S-234, S-260, S-270, and S-290. Brinton is an Engine Asst. Foreman on the North Zone. Brinton's other qualifications include: FFT1, FFT2, ICT5, ENGB(T), and HECM(T).

Recommendation:

RXB3 – Brinton has completed the level 1 and level 3 training with S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. Brinton meets the prerequisite experience of ICT5. He has had 2 years experience performing as RXB3. We recommend that Brinton be certified as RXB3.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.
Certify Brinton as RXB3 in Redcard / IQCS.

Peterson, Thad

Currently recorded Prescribed Fire Qualifications: RXB2(T)

Certificates are on file for: I-200, I-300, S-200, S-205, S-212, S-230, S-231, S-234, S-290, S-260, S-270, S-290, S-330, S-336, S-390, RX-300. The Redcard Master Record also documents RX-310. Thad is an Engine Foreman on the Bear River Zone. Thad's qualifications include: ICT4, ENGB, FFT1, FELB, FALC, TFLD(T), and STEN(T).

Recommendation:

RXB2(T) – Thad has completed the level 1 and level 2 training of: RX-300 Burn Boss, S-390 Intro to Wildland Fire Behavior Calculations, and RX-310 Intro to Fire Effects. Thad meets the required experience of RXI2 and ICT4. Thad currently has a taskbook initiated for RXB2(T).

RXI2 – Thad meets the experience requirement as ENGB. Thad's file documents RXI2 experience from 1999 through 2002. We recommend that Thad's experience be accepted, and that he be certified as RXI2.

RXB3 – Thad has completed the level 1 course S-290 Intermediate Wildland Fire Behavior. He exceeds the experience requirement as ICT4. Thad has been performing the RXB3 position for 4 years. We recommend that Thad be certified as RXB3.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Thad as RXB3 and RXI2 as Thad meets all the prerequisites and has 4 years of experience documented in Redcard.

Phelps, Ash

Currently recorded Prescribed Fire Qualifications: RXI2(T)

Certificates on file include: I-200, L-380, P-101, P-110, P-130, S-130, S-190, S-131, S-205, S-230, S-212, S-231, S-234, S-260, S-270, S-290, S-336, S-390, Fuels Management and Fire Use, and Fatality Fire Case Studies. The Redcard Master Record also documents the successful completion of: S-200 and S-230. Ash is an Engine Foreman on the Bear River Zone. His qualifications include: ENGB, FFT1, FALB, EMTB, ICT5, ICT4(T) and CRWB(T).

RXI2(T) – Ash meets the experience prerequisite for RXI2 with ENGB. He had a taskbook initiated on 03/11/2004.

Recommendation:

RXB3(T) – Ash meets the required experience as ICT5. He meets the level 1 and level 3 training with S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. We recommend that Ash be qualified as RXB3(T).

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Phelps, Rebecca

Currently recorded Prescribed Fire Qualifications: RXI2(T)

Certificates on file include: I-200, S-200, S-230, S-212, S-230, S-231, S-234, S-260, S-261, S-270, S-290, S-330, S-336, and S-390. The Redcard Master Record also documents the successful completion of: S-205. Rebecca is an Engine Foreman on the Bear River Zone. Her qualifications include: ICT4, ENGB, FALA, and CRWB(T).

Recommendation:

RXI2 – Rebecca meets the required experience as ENGB. Rebecca has 5 years of RX experience with 3 years as RXI2. We recommend that her experience be accepted and that she be certified as RXI2. Documentation should be listed in her task book which was issued on 03/11/2004 and certification should occur.

RXB3 – Rebecca exceeds the required experience as ICT4. She meets the level 1 and level 3 training with S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. Rebecca has been performing the RXB3 position for 5 years. We recommend that Rebecca be certified as RXB3.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Rebecca as RXB3 and RXI2, as meets all the prerequisites and has 3 year of experience in these positions.

Randall, Becky

Current recorded Prescribed Fire Qualifications: none

Training certificates on file: S-130/190/I-100, P-101, P-110, P-130, S-131, I-200, S-200, S-212, S-211, S-215, S-230, S-234, S-260, S-270, S-281, S-290, Apprenticeship Program, Fatality Fire Case Studies, Fuels Management and Fire Use. The Red Card Master Record documents S-217 as well.. Becky is currently the Assistant Engine Foreman stationed at Swan Valley and is Redcarded as: ENOP, ICT5, FFT1.

Recommendation:

There is no documentation of prescribed fire experience within Becky's file. Document prescribed fire experience as carefully as you document wildland fire experience.

Becky is nearing completion of a single resource task book. Upon completion initiate task book for RXI2.

Requested Forest Concurrence:

Accept the Red Card Master Record as documentation for S-217.

Redfox, Mark

Current recorded Prescribed Fire Qualifications: RXB3

Training certificates on file: S-330, S-281, S-234, S-230, S-270, I-271, S-205, S-217. The Red Card Master Record documents I-100, S130/190, S-131, S-200, S-211-212, S-260, S-290, S-390, S-339. Mark is currently the Assistant Engine Foreman stationed at Teton Basin and is Redcarded as: ENGB, ICT4, FALC, CRWB, RXB3 ENOP, and FFTR1.

RXB3 Mark meets all the requirements as RXB3 and was performing in this position prior to development of the RXB3 taskbook. Mark meets the prerequisite experience requirement of Single Resource Boss and has experience performing this position in the past, but older experience records are lacking.

Recommendation:

There is no documentation of prescribed fire experience within Mark's file. Document prescribed fire experience as carefully as you document wildland fire experience.

Initiate RXI2 task book for Mark.

Requested Forest Concurrence:

Accept the Red Card Master Record as documentation for: I-100, S130/190, S-131, S-200, S-211-212, S-260, S-290, S-390, S-339

Roberson, Richard

Current recorded Prescribed Fire Qualifications: RXB2(T)

Certificates on file include: I-244, I-346, I-339, I-401, I-400, I-420, RX-300, RX-340, S-205, S-232, S-290, S-300, S-331, S-336. The Redcard Master Record also documents the successful completion of: I-220, I-330, I-334, P-151, S-110, S-130, S-131, S-190, S-211, S-212, S-213, S-215, S-230, S-234, S-260, S-270, S-320, and S-390. Richard is a Natural Resource Specialist on the Dubois RD. His other qualifications include: STCR, SITL(T), and ICT3(T).

RXB2(T) – Richard had a taskbook initiated on 06/01/2000. His taskbook expired on 06/01/2003.

Richard's file does not contain any RX experience.

Recommendation:

Recommend that his RXB2 task book be extended for another year do to his move from the BT to here, then at the end of the year if he has not completed it can be re-initiated

Requested Forest Concurrence:

none

Rowe, Bobbette

Current recorded Prescribed Fire Qualifications: none

Certificates are on file for: S-230, S-231, S-260, and S-290. The Redcard Master Record also documents: S-130, S-190, S-200, S-212, S-215, S-217, S-270, S-281, S-371, and S-372. Other courses completed include: BeHave Plus in 2003 at NIFC. Bobette is a Helitack Crewmember on the Portneuf Zone. Her qualifications include: HEMG, FFT1, HECM, HESM, FALB, HRAP, EMTB, ICT5, TOLC(T), ICT4(T), DECK(T), and ABRO(T). Other trainee postions include: HEBM(T) and HERS(T)

Recommendation:

RXI2(T) – Bobette meets the required experience as HEMG. Bobette has 3 years experience as RXI2. Officially document in Redcard/ IQCs experience as RXI2 as follows: Bobette has performed as RXI2 in 2002 on the Wolf Ridge RX Burn, the Kelly RX Burn, the Willow RX Burn. In 2003 Bobette performed as RXI2 on the Miles Canyon RX Burn. RXI2 duties performed on Wildland Fires: 1999 on the Wagon Box

Fire, 2000 on the Telephone Fire, and 2001 on the Cove 2 Fire. Certification of RXI3 after experience is documented.

RXB3 – Bobette has completed the level 1 course S-290 Intermediate Wildland Fire Behavior. She meets the experience requirement as ICT5. Bobette has been performing the RXB3 position for 3 years. We recommend that Bobette be certified as RXB3. We also recommend formal documentation for S-234 be provided for Redcard / IQCS system. Officially document RXB3 experience in Redcard / IQCS as follows: Bobette has experience in RXB3 in 2002 and 2003 with the Scout Mountain Fuels reduction Project, and the Kinney Creek Fuels reduction Project.

Requested Forest Concurrence:

Certify Bobette as RXB3 and RXI2 since Bobette has sufficient experience and has completed the required training.

Stroud, Steve

Current recorded Prescribed Fire Qualifications: none

There are no training certificates in Steve's file. The Redcard Master Record documents the successful completion of: I-220, S-110, S-130, S-190, S-200, S-205, S-211, S-217, S-230, S-232, S-290, and S-336. Steve is an Engine Foreman on North Zone. Steve is qualified as PACK, ICT4, HEMG, FFT1, HECM, PLDO, FALC, ICT3, ENGB, and DOZB(T).

Recommendation:

RXI2 – We recommend that RXI2 be added to Steve's red card qualifications. Steve meets the required experience as ENGB. Steve has 10 +years of RX ignition experience.

RXB3 – Steve has completed the level 1 course S-290 Intermediate Wildland Fire Behavior. He exceeds the experience requirement as ICT3. Steve has been performing the RXB3 position for 10+ years. We recommend that Steve be certified as RXB3. We also recommend that Steve complete the level 3 course S-234 Ignition Operations. Official documentation of attending S-234 at ITEC should be located and entered into Redcard / IQCS.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Steve as RXI2 and RXB3 since Steve has 10+ years of ignition experience.

Tingley, David

Current recorded Prescribed Fire Qualifications: none

Certificates on file include: S-234, S-281, and S-390. The Redcard Master Record also documents: S-130, S-190, S-211, S-212, S-230, S-270, and S-290. Dave is a Fire Prevention Technician on the North Zone. His qualifications include: FFT1, FALB, CRWB, ICT5, and ENGB(T).

Recommendation:

RXI2(T) – Dave meets the required experience as CRWB. We recommend that a position taskbook be issued for Dave for RXI2. David has 3 years of RX ignition experience.

RXB3 – Dave has completed the level 1 and level 3 courses with S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. He meets the experience requirement as ICT5. Dave has been performing the RXB3 position for 2 years. We recommend that Dave be certified as RXB3.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Initiate a RXI2 taskbook, as Dave meets all the prerequisites.

Certify Dave as RXB3. He meets all the training and experience requirements and has 2 years performing as RXB3.

Jason Vanbebber

Current recorded Prescribed Fire Qualifications: none

Certificates are on file for: The Redcard Master Record also documents: I-100, S-130, S-190, S-131 S-200, S-211/212, S-215, S-217, S-281, S-290. Jason is an assistant engine foreman on the Portnuef Zone. His qualifications include: FFT1, HECM(T), FALA, ICT5(T), ENGB(T)

Recommendation:

RXI2 - Initiate RXI2 task book as soon as qualified as single resource boss.

RXB3 – Jason has completed the level 1 course S-290 Intermediate Wildland Fire Behavior. He meets the experience requirement as FFT1. Jason has been performing the RXB3 position for 2 years. We recommend that Jason be certified as RXB3. We also recommend that Jason complete the level 3 course S-234 Ignition Operations. Officially document in Red Card / IQCS the experience as follows: Jason has experience in RXB3

in 2003 with the Scout Mountain Fuels reduction Project, and the Kinney Creek Fuels reduction Project, as well as in 2002 with Lava Ranch and Pleasantview MT. Range pile burns.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Jason as RXB3. Jason meets all the training and experience requirements and has 2 years performing as RXB3.

Wolf, Larry

Current recorded Prescribed Fire Qualifications: none

Certificates are on file for: S-281 and S-390. The Redcard Master Record also documents the successful completion of: S-130, S-190, S-205, S-212, S-230, S-234, S-260, S-270, and S-290. Larry is an Engine Foreman on the North Zone. He is currently qualified as: ICT4, ENGB, FFT1, and FALC.

RXI2 – Larry has documented RXI2 experience in October of 1999. It is uncertain why this qualification is not currently on his Redcard. Officially document RXI2 experience in Redcard / IQCS as follows: Sheep Station Sept of 2003, Larry has _10+_ years of RX ignition experience.

RXB3 – Larry has completed the level 1 and level 3 courses with S-290 Intermediate Wildland Fire Behavior and S-234 Ignition Operations. He exceeds the experience requirement as ICT4. Larry has been performing the RXB3 position for 10+ years. We recommend that Larry be certified as RXB3.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Larry as RXB3 and RXI2. Larry meets all the training and experience requirements and has 10+ years performing as RXB3 and RXI2.

Woodcock, Dave

Current recorded Prescribed Fire Qualifications: none

A training certificate is on file for S-290. The Redcard Master Record also documents the successful completion of: I-220, S-110, S-130, S-190, S-200, S-205, S-212, S-215, S-217, S-230, S-290, and S-336.

Recommendation:

RXI2(T) – Dave meets the required experience as ENGB. We recommend Dave be certified as RXI2. Dave has many years of RX ignition experience. Input experience documentation into Redcard / IQCS.

RXB3 – Dave has completed the level 1 course S-290 Intermediate Wildland Fire Behavior. He exceeds the experience requirement as ICT4. Dave has been performing the RXB3 position for a number of years. We recommend that Dave be certified as RXB3. We also recommend that Dave complete the level 3 course S-234 Ignition Operations.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Dave as RXB3 and RXI2. Dave meets all the training and experience requirements and has experience performing as RXB3.

Ybright, Clay

Current recorded Prescribed Fire Qualifications: none

Certificate on file is for S-390. The Redcard Master Record also documents the successful completion of: I-200, I-254, S-130, S-190, S-205, S-230, S-260, S-270, and S-290. Clay is an Engine Foreman on the North Zone. His qualifications include: ICT4, ENGB, FFT1, BCMG, FALC, and CRWB.

Recommendation:

RXI2(T) – Clay meets the required experience as ENGB. He also has the required training. Officially document in Redcard / IQCS Clay's 12+ years of RX ignition experience.

RXB3 – Clay has completed the level 1 course S-290 Intermediate Wildland Fire Behavior. He exceeds the experience requirement as ICT4. Clay has been performing the RXB3 position for 10+ years. We recommend that Clay be certified as RXB3. Locate official documentation that Clay has completed S-234, level three training.

Requested Forest Concurrence:

Accept the Redcard Master Record as documentation of training for those courses for which the certificates are not on file.

Certify Clay as RXB3 and RXI2. Clay meets all the training and experience requirements and has 10+ years performing as RXB3.

Zajanc, Larry

Currently recorded Prescribed Fire Qualifications: RXB1.

Training certificates are on file for I-220, I-346, I-401, I-420, I-430, S-205, S-215 (early version of S-234), S-330 (1983), S-378(2000), S-390(1982), S-400(2000), S-490 (1998), Prescribed Fire & Aerial Ignition Workshop (1989), Smoke Emissions & Dispersion Modeling (1998). Larry is currently the South Fork Zone Fire Management Officer and has performed as a DIVS for nine years on two Type 1 Incident Management Teams, is an ICT2, OSC2, ATGS and SOFR2. He is also certified as ICT3, and OPBD.

Redcard documentation lists I-200, S-130, S-190, S-211, S-212, S230 & 231, S-330, and I-400 as qualified. S-580 scheduled for November 2004. Also attended TFM in 1994-95.

RX12 – Meets all of the requirements for RX12.

RX11 – Meets all of the requirements for RX11.

RXB2 – Larry has performed as ICT2&3, OSC2 and RXB2. He has conducted large aerial ignition projects on his zone since 1989 and while serving as OSC2 and DIVS on Incident Management Teams.

RXB1 – Larry has performed as RXB1 conducting large complex prescribed burns on his zone as the Fire Management Officer since 1989. Complex prescribed fires involving aerial ignition include: Darby Canyon – 1200 acres, 1989-91 (Helitorch); Dude Creek – 510 acres, 1991-93 (Helitorch); Pritchard Creek – 1998-99, 3625 acres (PSD); Canyon Creek – 1600 acres, 1999-01 (PSD); Warm Lake Complex – 1989, 500 acres (PSD); Okanogan Complex – 1984, 1200 acres (PSD).

FUM2 – Larry has the training and needs a FUM2 taskbook initiated.

Requested Forest Concurrence:

Accept Smoke Emissions and Dispersion Modeling training in place of RX-410. The Smoke Emissions and Dispersion Modeling course was taught prior to RX-410.

Certify Larry as RXM2 because he has experience in his current position performing these duties along with the required training.

Initiate a FUM2 taskbook for Larry.
